

SMARTWOOD ENGINEERED FLOORING

Smartwood flooring can help a commercial project achieve the following LEED® credits:

Recycled Content (MR 4)

Smartwood contains over 70% recycled content.

Rapidly Renewable (MR 6)

Smartwood's bamboo flooring qualifies as a rapidly renewable material.

Certified Wood (MR 6/7)

Smartwood is transitioning many of its veneers to FSC certified wood.

Recycled Content	MR 4	MR 4	MR 4	MR 4	MR 2.2
Rapidly Renewable Content	MR 6	MR 6	MR 6		
Certified Wood	MR 7	MR 7	MR 7	MR 6	MR 2.1
Low-emitting Materials, Adhesives & Sealants	IEQ 4.1	IEQ 4.1	IEQ 4.1	IEQ 4.1	MR 2.2
Low-emitting Materials, Flooring Systems	IEQ 4.3	IEQ 4.3	IEQ 4.3	IEQ 4.3	

Products bearing the LEED® Ready Green Shield™ logo have been certified by an independent third party (Alpine Green Solutions LLC) as fulfilling two requirements:

1. The product meets or exceeds the requirements of the LEED® credits specified in the certification.
2. The product provider has proven the capacity to produce documentation providing all information required for LEED® submittals, in a format consistent with the applicable LEED template.

Low-Emitting Flooring (IEQ 4.3)

All Smartwood flooring systems are currently undergoing tests to prove they adhere to the standards set forth in the CA Dept of Health Services Standard Practice for the Testing of Volatile Organic Emissions from Various Sources Using Small-Scale Environmental Chambers, including 2004 Addenda.

Low-Emitting Adhesives (IEQ 4.1)

The adhesive used to install Smartwood flooring, contains extremely low levels of Volatile Organic Compounds.

Construction Waste Management (MR 2)

Finish Systems International will take back uncut pieces of Smartwood flooring, diverting the material from the waste stream and enabling reuse.
